Coconut Briquette Charcoal

Coconut Charcoal Briquette is compact block charcoal that is made from coconut shell charcoal. Our charcoal briquette is made of granular coconut shell charcoal that is crushed charcoal and molded using a natural binder. As a fuel, it is hotter and last longer than ordinary charcoal. We only produce charcoal briquette from the best quality local coconut shells without adding any harmful chemicals. It is suitable for household use both indoors and outdoors. Also, it can be used in food industries, for barbaque, stove fuel, metallurgy, etc.
